start to success

COMPREHENSIVE SOLUTIONS FOR **GOLD MANUFACTURERS**

Growth cannot be realized if you continue running your manufacturing unit using manual calculations. E Smith is specially designed for manufacturing units and highly suitable for accounting & stock analysis.

COMPREHENSIVE SOLUTIONS FOR GOLD MANUFACTURERS

Optimize the business performance and Expedite the scaling-up process with our comprehensive solutions of E Smith.

E Smith is a multi-module application software that helps wholesalers who need an efficient solution to automate Jewellery manufacturing operations. It provides an affordable, simple, and effective solution that allows you to automate the routine tasks of your jewellery making and also accommodates special requirements like report generation or image attachment features. It has in-built modules that can manage all aspects of your jewellery wholesaling and manufacturing like, selecting a style, issue, production, receipt, inventory management, refining process of jewellery etc. It improves the productivity of large jewellery businesses that have achieved incremental growth and have the scope for expanding further.
